School Report.

The report of the School Board of the town of Belmont for the year ending March 1, 1890, is respectfully submitted.

It gives us pleasure to report that in our opinion the past has been a prosperous year with our schools. Each school has been carried through to successful completion; while some have reached a greater degree of excellence than ever before.

Wherever this superior excellence is found it is due largely to the teacher. Selecting teachers suited to the wants of the various schools, paying them the wages demanded out of the money at our disposal; and at the same time maintaining schools as long as we feel that they ought to be is a perplexing task.

School order, $1,214.30; cash on hand, $86 64; amount not expended, $12 91. Whole number of scholars in town not less than five years of age who have attended district schools not less than two weeks, 169. Number of children in town between the ages of five and fifteen years, as reported to by the selectmen: males, 84; females, 78; total, 162. Number of persons betwen the ages of fourteen and twenty-one years who cannot read and write, 5.

DETAILED REPORT.

LADD HILL—Miss Eva E. Lamprey, teacher, during the Spring term. Miss Lamprey is a young teacher and is trying to succeed. Very fair progress was made.

Fall term, Miss Mabel A. Sanborn teacher. Miss Sanborn tried to have a good school and make progress. She succeeded fairly well.

Gerald.

*UNION—Asa E. Gile, teacher. Mr. Gile is well-known to the people of Belmont as a successful teacher. The scholars made very good progress.

Gerald.

JAMESTOWN—We were pleased with the condition of the school during the Spring term. It was small, which is a misfortune not only to this but to any school. It was taught by Miss Mabel A. Sanborn.

Fall term taught by Miss Eva Lamprey. This was the first term taught in the new school room, and we were pleased to see more scholars than in terms past. Miss Lamprey is a quiet, yet earnest and faithful teacher, and much improvement was made in the school.

Sargent.

VILLAGE.

*Grammar—Miss Mattie M. Bean, teacher. There was an improvement in the school during the year, and brilliant examinations were witnessed at the close of the terms. Although this being the teacher's first experience with so large a school she proved herself qualified.

*Intermediate—Mrs. M. L. Randall, teacher. From years of experience Mrs. Randall has become a most efficient instructress and the school from term to term is making a rapid developement.

*Primary—Miss Etta Heath, teacher. The school was large and as the scholars were most of them very small they required great care and attention. Miss Heath seemed to be alive to her duties and managed the school with great skill. Sargent.

*Province Road—Mrs. M. J. Holman, teacher. The people who are acquainted with Mrs. Holman know what her schools are, and we can only say the school this year has reached a higher degree of excellence than ever before. Sargent.

Bennett—Miss Addie B. Marsh, teacher. Miss Marsh came to us a stranger from an adjoining State, with but little experience in teaching. She entered earnestly upon her work, became thoroughly acquainted with each lesson before attempting to teach it, gained the confidence and respect of her scholars, and the result as might be inferred was a good school.

Fall Term, Miss Gertrude E Whitten, teacher. This was Miss Whitten's first school. She labored under the disadvantage of never having seen so small a school; her school life having been spent among many pupils. However, she soon adapted herself to the changed conditions, and the school made commendable progress under her instruction. Plumer.

Lower Province Road.—This school for three years past has been united with No. 9. At the earnest request of a few citizens, we consented to open a school here, but the attendance proved to be smaller than was expected. It was taught by Mr. Ernest K. Piper. This was Mr. Piper's first attempt at teaching, but from the commencement he showed an aptness for the work that in some cases is attained only by years of practice. At the close we found the most friendly relations existing between teacher and pupils, and all the progress was made that could be expected in a school of five scholars.

Plumer.

REPORT OF COMMITTEE ON REPAIRS.

The sum of three hundred and fifty dollars was raised with which to repair the school houses in Nos. 1 and 3, and to pay interest on two notes, of two hundred dollars each. We commenced upon the Jamestown, and as the work progressed the house was found to be in a very poor condition, and there seemed to be no place to stop short of general repairs, from foundation to roof. Accordingly, the building was put in first-class condition and is now the best school house in town. The repairs upon Ladd hill school house consisted of new foundations and drainage. It now needs new doors and seats and to be plastered and painted.
